The **Japanese Learners' Room** was established in 1990 and is jointly managed and hosted by three entities: Japanese Learners' Room volunteers, the Yagiya Shimin Center, and the Sendai Tourism, Convention and International Association.

Students who bring children along can leave them in the children's room inside the Shimin Center while attending classes. Volunteers with a wealth of experience will take care of the children. Children 6 months and older can be taken care of

The **Japanese Learners' Room** also has a variety of events in addition to Japanese studies.
