Established in 1990, **the Japanese Learners' Room** has been jointly operated by three entities: Japanese Learners' Room volunteers, the Yagiyama Shimin Center, and the Sendai Tourism, Convention and International Association.

Students who bring children along can leave them in the children's room inside the Shimin Center while attending classes. Volunteers with a wealth of experience will take care of the children. Only children over one-year old will be accepted.

*Only for children between the ages of one and five.

The Japanese Learners' Room also has a variety of events in addition to Japanese studies.
